DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Submission for OMB Review: Comment Request

Title: Innovative Strategies for Increasing Self-Sufficiency: Follow-Up Data Collections

OMB No.: 0970-0397

Description: The Administration for Children and Families (ACF), U.S. Department of Health and Human Services (HHS), is proposing a data collection activity as part of the Innovative Strategies for Increasing Self-Sufficiency (ISIS) evaluation. ISIS is an evaluation of 9 promising career pathways strategies to promote education, employment, and self-sufficiency. The major goal of ISIS is to increase the empirical knowledge about the effectiveness of programs for low-income individuals and families to achieve educational credentials, attain employment and advance to positions that enable self-sufficiency.

ISIS is one project within the broader portfolio of research that OPRE is utilizing to assess the success of the career pathways programs and models. In addition to ISIS, this strategy includes a multi-pronged research and evaluation approach for the Health Profession Opportunity Grants (HPOG) Program to better understand and assess the activities

conducted and their results. In order to maximize learning across this portfolio, survey development for the HPOG and ISIS baseline and follow up surveys is being coordinated, and the majority of the data elements collected in these surveys are similar.

Two data collection efforts have been approved for ISIS, including one for baseline data collection (approved November 2011), a second for data collection activities to document program implementation, data collection activities for an initial follow-up survey of participants to be administered approximately 15 months after random assignment, and data collection through in-depth interviews for a small sample of study participants (approved August 2013). Additionally, three related data collection efforts for HPOG research were approved by OMB under OMB # 0970-0394. These include approval of a Performance Reporting System (PRS) (approved September 2011), for collection of additional baseline data for the HPOG-Impact study (approved October 2012), and for collection of data for the National Implementation Evaluation (approved August 2013). Additionally, a new request is being submitted at the same time as this request.

This Federal Register Notice provides the opportunity to comment on a proposed new information collection activity for ISIS - a second follow-up survey for ISIS participants approximately 36 months after program enrollment. The purpose of the survey is to follow-up with study participants to document their education and training experiences, employment experiences, and parenting practices and child outcomes for participants with children.

Data collection activities to submit in a future information collection request include a third follow-up survey for ISIS study participants approximately 60 months after study enrollment.

Previously approved collection activities under 0970-0397 will continue under this new request, including additional data collection using the following previously approved instruments: the Basic Information Form; the Self-Administered Questionnaire; 15-Month Follow-Up Survey; 15-Month Follow-Up Survey Tracking Letters; Study Participant In-depth Interview Guide; and Study Participant Check-in Call. The estimated number of study participants for the 15-Month Survey and in-depth interviews is reduced from the previous OMB submission. Total sample size targets were reduced at a number of ISIS program sites to reflect actual study enrollment experiences. The number of in-depth interviews projected was also reduced to incorporate experiences to date recruiting participants.

Respondents: Individuals enrolled in the ISIS study.

ANNUAL BURDEN ESTIMATES

[This information collection request is for a three-year period.]

Instrument	Total Number of Respondents	Annual number of respondents	Number of responses per respondent	Average burden hours per response	Annual burden hours
Previously Approved Instruments					
Baseline data collection: Basic Information Form	24	8	1	.25	2

Instrument	Total Number of Respondents	Annual number of respondents	Number of responses per respondent	Average burden hours per response	Annual burden hours
Baseline data collection: Self-administered Questionnaire	24	8	1	.33	3
15 Month Follow-up Survey	2,900	967	1	0.833	805
Study Participant In-depth Interview Guide	144	48	1	1	48
Study Participant Check-in Call	144	48	1	.16	8
Current Request for Approval					
36-Month Follow-up Survey	7,386	2,462	1	1	2,462

Estimated Total Annual Burden Hours:

3,328

Additional Information: Copies of the proposed collection may be obtained by writing to the Administration for Children and Families, Office of Planning, Research and Evaluation, 370 L'Enfant Promenade, SW., Washington, DC 20447, Attn: OPRE Reports Clearance Officer. All requests should be identified by the title of the information collection. E-mail address: OPREinfocollection@acf.hhs.gov.

OMB Comment: OMB is required to make a decision concerning the collection of information between 30 and 60 days after publication of this document in the Federal Register. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of

publication. Written comments and recommendations for the proposed information collection should be sent directly to the following:
